

LETTER OF RECOMMENDATION

To whom it may concern

RE: Anamarija Fink, M.Arch.

Anamarija joined our practice in June 2016 and has been working on several projects till current month, October 2017.

She has undertaken a wide range of responsibilities, suited for a Graduate Architect. Her predominant involvement has been preparing all necessary drawings, from concept design, through building permit, detailed design, and sometimes support on construction site, for a substantial renovation of office spaces and interior fitout for our client BAS production. She was also preparing all concept design drawings, 3D model and the final presentation for a block of flats (10 units) in Ljubljana. She has played a key role in preparing concept design drawings, presentation and visualisations, for an invited competition for a 5* hotel in Ljubljana. Another project worth mentioning is concept design for 500m² office space for an IT company ICONOMI in Ljubljana.

When not working on above mentioned projects, she was working on a renovation of a 120 m² apartment in a heritage modernist building in Ljubljana.

Anamarija has exceeded our expectations in this role, having produced accurate and well resolved drawing packages. She has a very well developed understanding of the forces of architecture, but has also rapidly developed an understanding of the design culture of P PLUS ARHITEKTI.

She has been an enthusiastic and efficient employee, and has tackled any task with willingness and discipline.

I have no reservations recommending Anamarija to any future employer. We wish her the very best for the future, and expect to see her portfolio further develop in rich and rewarding ways.

Yours sincerely,

Primož Boršič m.i.a.
